github.com/cyrf0006

Canadian citizen, born 10 April 1984.
Spoken and written languages: French (mother tongue) and English.
Understand Spanish, Italian and Dutch.
IT skills include Linux, Python, Matlab, LaTeX, HTML.

Education

Université du Québec à Rimouski (UQAR-ISMER) **Rimouski, Canada**
Ph.D. - Oceanography *2009-2014*
Citation of Excellence

Université de Versailles-St-Quentin-en-Yvelines **Saclay, France**
M.Sc. - Climatology *2007-2008*

École Nationale Supérieure de Techniques Avanceée (ENSTA-Paristech) **Paris, France**
M.Sc. - Environmental Engineering *2006-2008*
Combined degree with École Polytechnique de Montréal

École Polytechnique de Montréal **Montréal, Canada**
B.Eng. - Engineering Physics *2004-2008*
Citation of Excellence & International Profile

Work Experience

Research Positions

Fisheries and Oceans Canada, Northwest Atl. Fish. Centre (NAFC) **St. John's, Canada**
Physical Scientist II *2017-*
Multi-scale physical-biogeochemical interactions in the NW Atlantic ocean
Report environmental conditions for the Atlantic Zone Monitoring Program (AZMP)

Mediterranean Institute of Oceanography (MIO) **Marseille, France**
Post-Doctoral research position (European project NeXOS) *2016-2017*
Development of a new glider optical sensor (*MiniFluo-UV*)
Dissolved organic matter dynamics in NW Mediterranean Sea

Royal Netherlands Institute for Sea Research (NIOZ) **Texel, Netherlands**
Post-Doctoral Fellow (FRQNT funded, 2 years) *2014-2015*
Mixing and biogeochemical exchanges caused by internal waves

Fisheries and Oceans Canada, Maurice Lamontagne Institute **Mont-Joli, Canada**
Physical scientist (PC-2, 3-month contract) *2013*
Thermal fronts in Canadian Coastal Waters

Internships, Scientific Appointments and Other Training

Bedford Institute of Oceanography **Darthmouth, Canada**
Training on SeaExplorer glider (1-week course given by Alseamar) *2017*
Training with DFO SeaExplorer gliders

Alseamar-Alcen **Meyreuil, France**
Training on SeaExplorer glider (1-week course) *2016*
Learned how to work with SeaExplorer: Technology, deployment, piloting, maintenance, etc.

Leibniz Institute for Baltic Sea Research, Warnemünde (IOW) **Warnemünde, Germany**
Internal wave mixing in the Baltic Sea (5-week IOW grant) *2015*
Work on data from a scientific cruise in collaboration with the NIOZ

Air-Sea Interaction Laboratory, University of Delaware **Lewes (DE), USA**
Air-flow separation over wind waves (3-month FRQNT grant) *2012*
Built a platform to perform Particle Image Velocimetry (PIV) at sea
Assisted PhD student M. Buckley in conducting PIV experiments above wind waves

Université Laval **Québec, Canada**
Coupled modeling ocean-ice-biology in the Canadian Arctic (4-month) *2008*
Implemented ice-ridging scheme in numerical hydrodynamic model
Performed particle-release simulations for *off-line* coupling with Individual-Based Model

Lab. de Glaciologie et Géophysique de l'Environnement **Grenoble, France**
Surface melting in Antarctica (2-month) *2007*
Detected surface melting events from remote sensing microwave observations
Compared observed melting events and results from 1D/3D models of Antarctica

Teaching

Cégep de Rimouski **Rimouski, Canada**
Teacher (college level) *2011-2012*
W-2012: 982-003-50 - Science and Technology of the Environment (23 students)
W-2011: 203-221-RK - General Physics (27 students)

Université du Québec à Rimouski **Rimouski, Canada**
Lecturer *2010*
F-2010: MAT10309 - Calculus I (2 students)

Université du Québec à Rimouski **Rimouski, Canada**
Teaching Assistant *2010*
F-2010: Responsible for mathematics free revision periods (Engineering department)
W-2010: Responsible for mathematics free revision periods (Engineering department)
W-2010: SCE11106 - Mathematics Knowledge (15 students)

École Polyvalente des Iles **Iles de la Madeleine, Canada**
High-school Teacher (3-month) *2009*
Regular teacher in mathematics
Frequent substitute teacher in other classes

Grants, Scholarships and Awards

Research proposals

DFO ACCASP proposal ($143K; *pending, LOI sucessful*) 2018
Recent changes in the biogeochemistry of Northwest Atlantic water masses

SOCIB-glider proposal (*In-kind*; *sucessful*) 2018
Ship time and facility use during Pre-SWOT campaign (co-PI with A. Doglioli)

DFO ACCASP proposal ($27K; *sucessful*) 2017
Northwest Atlantic water masses biochemical modifications in a changing climate

Grants, fellowships, etc.

IOW visiting grant ($2,790) 2015

FRQNT Postdoctoral Fellowship ($63,333) 2014-2016

FRQNT International Internship Award ($6,700) 2012

UQAR Foundation grant ($1,500) 2012

FRQNT Doctoral Research Scholarship ($60,000) 2009-2012

Madeli-Aide Foundation, Excellence Scholarship ($2,500) 2007

Grandes-Écoles Scholarship ($9,000) 2006-2008
École Polytechnique de Montréal / ENSTA-Paristech combined degree

Desjardins Foundation grant ($1,000) 2005

Other Awards

Giovanni Image Hall of Fame Distinction by NASA-GSFC (2017 class) 2018
A collection of outstanding figures using NASA Giovanni Portal data

Québec-Science Magazine, among 10 discoveries of the year 2014
Bourgault et al. (2014), *Environ. Res. Lett.*, 9, 054001.

Best-Talk Award, Québec-Océan Annual General Meeting, Rivière-du-Loup 2013

Congress Support, Rockland Scientific International 2011
Registration fees, Warnemünde Turbulence Days, Germany

Best-Talk Award, Québec-Océan Annual General Meeting, Lac Delage 2010

Research Experience

Field Work

2018: Glider deployment in the Mediterranean Sea (Chief Scientist on glider deployment)
14-day deployment during French-Spanish campaign Pre-SWOT (3-15 May, PIs: A. Pascual & A. D'Ovidio)
Multidisciplinary horizontal fine-scales measurements
Hydrocarbon concentrations in the Mediterranean Sea

2017: Atlantic Zone Monitoring Program, Fall Survey (Chief Scientist: S. Lewis)
20-day cruise on board Furgro Discovery (8 - 28 July)

2017: Multidisciplinary study centered around turbulence, Fortune Bay (co-leaded with S. Donnet)
5-day campaign near St. Pierre and Miquelon archipelago on small fishing boat (4-8 September)

Microstructure profiler, bioacoustics and optical measurements
Field trip in support of IFREMER campaign with R/V Antea (Chief Scientist: P. Lazure)

2017: Atlantic Zone Monitoring Program, Spring Survey (Chief Scientist: E. Colbourne)
17-day cruise on board CCGS Teleost (6 - 23 April)

2017: Atlantic Zone Monitoring Program, Summer Survey (Chief Scientist: S. Lewis)
20-day cruise on board CCGS Teleost (8 - 28 July)

2016: Glider deployment in the North Sea (Chief Scientist)
Monitoring dissolved hydrocarbons in proximity of Statoil's Troll field (12 Nov. - 3 Dec.)
7-day cruise on board Norwegian supply vessel Havila Troll
14-day glider deployment

2016: 2 glider benchmark experiments (1-day each) (Chief Scientist & Glider Pilot)
in situ calibration of optical sensor by comparison with water samples (July & October)

2016: 10-day glider deployment in the NW-Mediterranean (Chief Scientist & Glider Pilot)
Dissolved organic matter dynamics accross the Northern Current (July-August)

2016: 21-day glider deployment in the NW-Mediterranean (Chief Scientist & Glider Pilot)
Survey of the Ligurian Sea to track an oil spill that occurred near Genoa on 23 April 2016

2016: 2-day cruise on the Mediterranean aboard R/V Tethys II (Chief Scientist: Julien Fenouil)
In situ tests with the Moving Vessel Profiler (MVP) in the Ligurian Sea

2016: 19-day glider deployment in the Gulf of Lion, NW-Mediterranean (Chief Scientist)
Dissolved organic matter dynamics between Marseille metropolitan area and offshore waters
Deployment also in support of the SeaQUEST campaign (Chief Scientist: O. Ross)

2015: 10-day OSCAHR campaign (Chief Scientist: A. Doglioli)
Observing Submesoscale Coupling At High Resolution (OSCAHR), NW Mediterranean
Was the ground-based scientist in charge of glider operations

2014: 11-day cruise aboard R/V Pelagia (Chief Scientist: H. van Haren)
3D-mooring deployment at Mount Josephine, North Atlantic near Portugal

2014: 4-day field experiment in the Delaware Bay (Chief Scientist: M. Buckley)
In situ measurements of the air-flow above wind waves from Particle Image Velocimetry (PIV)

2013: 4-day cruise in the Gulf of St. Lawrence aboard R/V Coriolis II (Chief Scientist: U. Neumeier)
Recovery and re-deployments of 4 moorings

2013: 2-week campaign sampling internal waves in Saguenay Fjord (Chief Scientist: D. Bourgault)
Deployment and recovery of a mooring from small boat
Daily sampling (ADCP, CTD and time-lapse photography)

2012: Field experiment in the St. Lawrence Estuary (Chief Scientist)
3 opportunistic sorties (July-August)
Over-wintering mooring recovery in the St. Lawrence Estuary

2012: 2-day field experiment in the Delaware Bay (Chief Scientist: M. Buckley)
In situ measurements of the air-flow above wind waves from Particle Image Velocimetry (PIV)

2011: Field experiment in the St. Lawrence Estuary (Chief Scientist)
18 opportunistic sorties (May-November)
Deployment and recovery of two moorings and deployment of an over-wintering mooring
Realization of a two-week experiment with two boats and a 5 people crew (7 sorties)

2011: Field experiment in the Saguenay Fjord (Chief Scientist: D. Bourgault)
Deployment of a mooring and CTD transect along the Fjord

2010: Field experiment in the St. Lawrence Estuary (Chief Scientist)
14 opportunistic sorties (May-October)

Two-week experiment with two boats and a 6 people crew for simultaneous sampling (10 sorties)

2009: Field experiment in the St. Lawrence Estuary (Chief Scientist)

6 opportunistic sorties (July-August)

Realization of a sampling experiment at the head of the Laurentian Channel (4 days)

Training Highly Qualified Personnel

Ali Moridnejad (Post-doc), supervisor 2018

Recent ocean conditions changes on Newfoundland and Labrador shelves (3-month)

Rémi Chassagne (Undergraduate), internship supervisor 2015

Internal tides generation by topographically-trapped waves (3-month)

Camil Hamel (Undergraduate), internship co-supervisor with D. Bourgault 2011

Turbulent nitrate fluxes in the Amundsen Gulf, part II (4-month)

Camil Hamel (Undergraduate), internship co-supervisor with D. Bourgault 2010

Turbulent nitrate fluxes in the Amundsen Gulf, part I (4-month)

Contributions to Research
